Our couples tell us ...

"We were so wrapped up in the days events we missed so much of what was happening with our family and friends."

Your photographs showed us Our Wedding Day"

We are specialists in the "Photojournalistic Approach" to wedding photography. We provide complete coverage of the days events as they unfold naturally.

Because each wedding is unique, we offer a choice of customized or inclusive wedding packages.

Our basic "Wedding Photography Fee" starts at \$950 for 4 hours of photographic coverage.

All your "Wedding Day Images" will be carefully inspected and professionally finished. We then provide you with a DVD of High Resolution Digital Images with no branding or water marks so you are free to make as many full sized prints as you wish.

Because Stuart has been taking pictures for more than 25 years, you can be confident that you will receive expert coverage of all your special moments. Stuart works with his wife Barbara as his assistant and always carries a "Complete Back Up Photographic System".

Photography and video combination packages are also available.

We offer "View Images On-Line" service to all our clients. This means that for a limited time your family and friends can view your "Wedding Day" images.

We are also a Design Company so we can create your "Wedding Print Package" too!

We offer our congratulations and promise to respond to your questions promptly.

Please contact us to discuss your special requests.

We can show you "Your Special Day"
